

Personal Finance Analyzer

**Brian Fang, Bryan Partida, America Pacheco, Ross
Henderson, Bailey Bounnam**

What we're building

- Web application designed to simplify financial management for users
- Provides tools to track spending and manage subscriptions
- Intuitive user interface and analytics

This will help users...

- to manage and keep track of their personal finances
- see where their money is going
- make decisions for future spending based on these facts

Current Practices?

Possible Logos

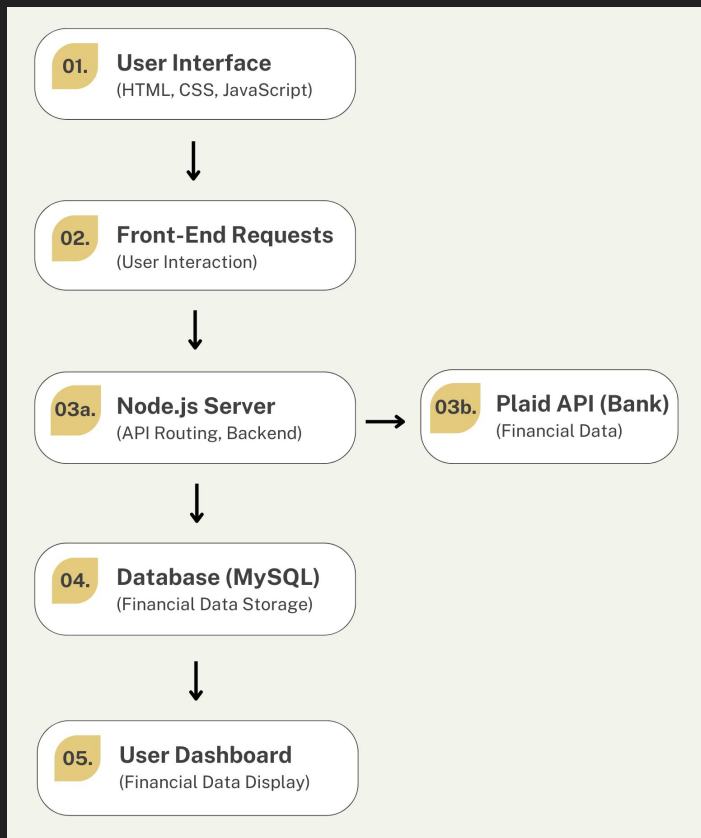

Key Features

- **Dashboard Overview:** Comprehensive financial summaries at a glance.
- **Subscription Tracking:** Flags underused services
- **Spending Categories:** Visual breakdowns of expenses
- **Budgeting Tool:** Set and track spending goals

Technical Approach

- Front-End: HTML, CSS, JavaScript
- Back-End: Node.js, Express
- Database: MySQL for secure data storage
- API Integration: Plaid API for bank account linking

System Architecture

Why Join the Team?

Our Impact:

- Empower users with increased financial clarity
- Be part of an innovative project that makes personal finance accessible

Opportunities for Team Members:

- Gain experience with Plaid API
- Contribute to something that makes a tangible difference in people's lives
